

SOUTH AFRICAN HERBAL SCIENCE AND MEDICINE INSTITUTE

6 February 2008

Dear MRC Scientist/Researcher

Re: MRC African Traditional Medicine and Drug Discovery NCRP

In 2007, the MRC Board decided to support the creation of an African Traditional Medicine and Drug Discovery National Collaborative Research Programme (NCRP), as part of the MRC strategic plan. To this end, we are organizing a national workshop at the MRC Conference Centre in Cape Town on 19 February (08h00-18h00), to discuss and develop this very significant NCRP.

We would appreciate you bringing this important event to the attention of all interested persons within your organization, who should RSVP Ms. Heidi Josephs, Technology and Innovation Directorate, Medical Research Council (heidi.josephs@mrc.ac.za) by 13 February, should they wish to attend.

Best wishes.

Prof. Quinton Johnson

National Convenor
